Landmark \$10,000

Our ultimate goal is to prepare youth for a lifetime of stability and independence, and for many, a landmark moment towards that reality is securing their first apartment. Through our rapid rehousing program, we help youth find an apartment, cover move-in costs like security deposits and utility start-up, and get settled into their new homes. Then we support them through rental assistance and financial management training until they are ready to fly solo. Providing rental assistance for three youth moving into their own apartments, Landmark Supporters are the bridge to independent living for Covenant House Georgia's young people! Open the door to lasting stability for our young people and enjoy these additional benefits:
